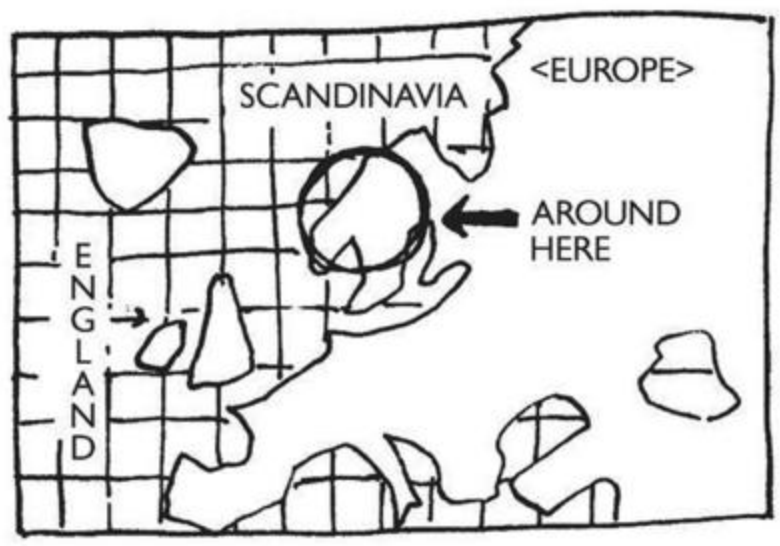
VIKINGS, PART 1

- All pirates are sea-roving plunderers, but throughout history there have been many different kinds of pirates in different times and places.

- I want to talk about one of my favorite kinds of pirates: the Vikings.

- Over a thousand years ago, Viking raiders swept down from Scandinavia and ran amok through Europe.



They came from the present-day countries of Norway, Sweden and Denmark. As to why they were called Vikings, well, that's easy: that's what they called themselves. Why did they call themselves Vikings? To know that, we'd have to go back a thousand years and ask them.
